

WHAT IS EASYTECH?

Learning.com's EasyTech is an online instructional system that helps K-8 schools effectively integrate technology with learning. Students gain valuable technology skills while reinforcing core curriculum concepts. They learn to use technology applications as problem-solving tools for classroom projects.

EasyTech includes:

€ **Technology literacy lessons**

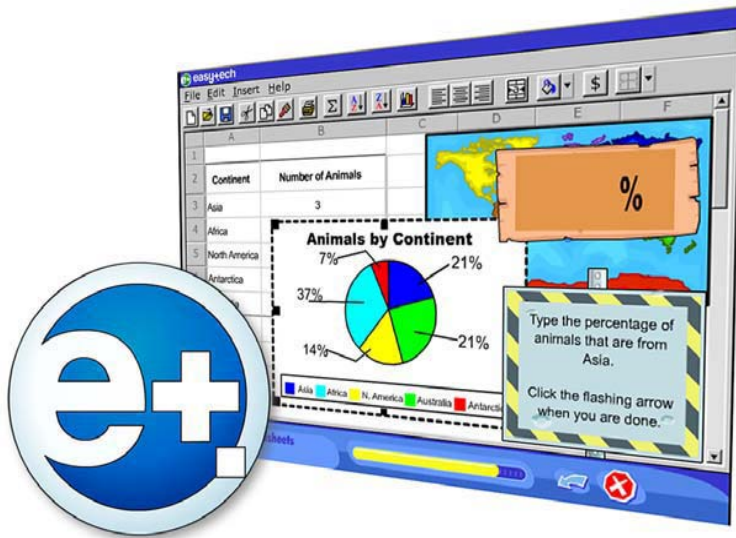

Teach technology skills integrated with core curriculum

€ **Integration activities**

Enable teachers and students to apply technology skills to core curriculum activities

€ **Teacher's management system**

Allows teachers to manage classes, assign appropriate lessons, and assess student progress

HOW DOES EASYTECH HELP STUDENTS?

- € EasyTech lessons are student-centered, interactive lessons, complete with animation and sound.
- € Easy Tech is delivered via the Internet, which means the system can be accessed from virtually any Internet-ready computer.
- € EasyTech is a fully scoped and sequenced technology curriculum that reinforces learning in Language Arts and Math.
- € EasyTech tracks student progress and provides real-time assessment of student performance, giving students achievement certificates upon completion of a lesson.

If you would like to explore some of the technology lessons, feel free to log in with your student. Use the following username and password to access EasyTech through the Learning.com home page at: <http://www.learning.com>.

School Name: _____

Teacher Name: _____

Student Name: _____
