### Week of November 9:

## Superb Science

Ms. Morse

Carnival can collection yielded 18 pounds of aluminum cans. That will save bauxite from being dug from the rain forest! We also collected 88 egg cartons that would otherwise have gone into the landfill! Yea, Third Grade!!

We're slowly completing our study of matter and will "push" on to force in the next weeks. BTW, if you ask us "What's the matter?", we'll show you how scientific we can be!

## Sensational Social Studies

In our study of communities we are looking at people that make up communities, customs, immigrants and cultural celebrations. We continue to work on map skills including cardinal and intermediate directions, map keys, and map grids. In Junior Achievement students are learning about city planning and running a business.
