## The Series of Unfortunate Events

Author: Lemony Snicket

### Lemony Snicket

Lemony Snicket is the author of The Series of Unfortunate Events. His family has property in a part of the world, which is now underwater. He won many awards including Honorable Mention, First Runner Up, and The Grey Ribbon. Daniel Handler is his real name. The pictures that we found on the internet do not show his face. Although, we did figure out why he writes sad stories. It's because in Lemony's childhood he always read

stories with happy endings so he decided to write book series where nothing good happens.

### The Books

These books are about three orphans who have a terrible life. There are expected to be 13 volumes, so far there are only eight. We recommend starting with the first book The Bad Beginning. This is a sad tale about the three children and the vicious Count Olaf who through out the series is trying to capture the Baudelaire orphans fortune. In the first book the three children hear horrible news: their parents get killed in a huge fire and get sent off to live with a faraway relative. If you want to read this book you will be encountering itchy clothing, a plot to steal kid's fortunes, and cold porridge for breakfast.
