Marvelous Math

Mr. Gay and Ms. Stecker

Probability and Graphing

Geometry: Recognize the names for 2D and 3D shapes and identify their properties; Congruence and Symmetry

Problem Solving: Identify math in everyday situations, use mathematical language to describe situations

Facts:

Continue with multiplication timed drills through "x12"

Superb Science

Ms. Morse

We're leaving the wonders of Earth to make some discoveries in the solar system! Then, it's on to Science Fair which we will complete as a class. Do you know the definition of a machine? We will know and we'll prove it!

Don't forget the CANS!!

Sensational Social Studies

Economics: Earning, Spending and Saving; Choosing Wisely; Community Business

BENCHMARK TESTING!!

Reading and Math Benchmark (practice TAKS) will be Mar. 9th and 10th.

Students should be well rested and bring a book to read with them on those days.
